

TIMY-Soft compatibility with Microsoft

Excel® 97 : TIMY-Soft will run correctly ONLY when used on **Win98®**. There are "Year-2000" related bugs in Excel® 97 which make it unusable on later versions of Windows.

Excel® 2000, 2002 and 2003 : TIMY-Soft will run correctly ONLY when used on **Win2000®** and **WinXP®**. TIMY-Soft will NOT run correctly if you use one of these Excel versions under Vista (more Microsoft bugs).

Excel® 2007 : TIMY-Soft will work on **WinXP®** and **Vista®** machines.

If you are using a **Vista** machine you **MUST** use **Excel® 2007**.

MS®-op.sys	MS-Excel® version				
	97	2000	2002	2003	2007
Win98®	✓	✗	✗	✗	✗
