

TIMY-Soft compatibility with Microsoft® Excel products

Windows 98

TIMY-Soft requires **Excel 97** on **Win 98** platforms

Excel 97 is unreliable on Win2K, WinXP, Vista and Win7 systems due to "Year-2000" issues related to 'date' functions within Excel 97.

Windows 2000

TIMY-Soft runs with all versions of **Excel 2000 - 2003** when installed on **Win 2000**.

TIMY-Soft 'macros' will run correctly if these Excel versions are installed on Win 2000 systems.

Windows XP

TIMY-Soft runs with **Excel 2000 -2003 & Excel 2007** when installed on **Win XP**.

TIMY-Soft 'macros' will run correctly if these Excel versions are installed on Win XP systems.

Vista & Windows 7

TIMY-Soft requires **Excel 2007** when installed on **Vista & Windows 7**.

Vista & Windows 7 do not fully support 'macros' used in earlier versions of Excel (Microsoft issues).
